ROBBY MILLER
PARISH PRESIDENT

Everest InvisaShield, LLC
Mike Landry, Director of Operations
11424 Spring Cypress Road
Tomball, TX 77377

Dear Mr. Landry:

The 2020 Covid 19 pandemic made us realize that regular cleaning and disinfecting might not be enough anymore to keep our employees and customers safe from harm. We started searching for additional services that can protect further than disinfectants and found out that anti-microbial treatments can protect surfaces from 30 days to 120 days or more. We opened a RFP requesting quotes from different contractors and after much consideration we selected Everest InvisaShield to clean, disinfect, and apply the ClearShield anti-microbial treatments, which protect surfaces against germs for up to 120 days. We chose to do a one-time application for some of our facilities and analyze the results afterwards before deciding on any subsequent applications.

Every person we worked with Everest InvisaShield was knowledgeable and professional. Every piece of information was delivered concisely, and documentation was provided promptly upon request. When the time for application came, in the middle of May, they arrived on time and went straight to work. The whole team was organized and hardworking, and the team leader ensured every surface was treated. Tests were done and results were provided. Stickers were placed on all entry and inside doors to show that facilities were treated with ClearShield for 120 days.

We were so impressed with how the initial application was conducted that we have decided to treat the rest of our facilities with ClearShield.

We can now proudly show our employees and our customers that we take their healthcare very seriously and we do everything we can to keep them safe and healthy.

Sincerely,

Joe Thomas, CAO
