

June 15, 2020

Due to COVID 19 and the re-opening of our offices, we contracted Everest Invisashield, LLC to sanitize and use the Bio Protect system throughout our office.

Everest Invisashield says that their system provides a protective barrier on all surfaces from computers to furniture for 90 days.

The installation was simple, and quick. They handled it in a very professional manner.

I have recommended them to several people.

The comfort that I feel knowing that there is an additional level of protection for my employees and guests is priceless.

I highly recommend Mike Landry and his team at Everest Invisashield.

Sincerely,

Craig G. Wilson
