To: Whom it may concern

From: Michael Hudson/Area President

iHeart Radio Baton Rouge/New Orleans

Reference: Mike Landry and the Everest Invisashield, LLC Team

In April of 2020 Mike and his team at Everest Invisashield treated our offices and broadcast studios in New Orleans and Baton Rouge, approximately 26,000 square feet. I needed them because we had an employee with COVID symptoms and she tested negative for the flu. Our broadcast teams and engineers have to work 24/7 during events like COVID 19 to serve their communities. They applied the smart touch disinfectant and then the bio protect barrier sterilizing our offices and radio studios. Thanks to their treatment I could ensure our broadcast teams were safe for 90 days. They were so professional, the installation was done with no risk to our employees and the end result was our teams feeling safe to do their jobs.

If you are considering COVID treatment for your business or home I totally recommend Mike Landry and the Everest Invisashield team. Their smart touch disinfectant and bio protect barrier will ensure that your business or home is ready for business.

Feel free to call me any time: 225-408-0222

A handwritten signature in black ink, appearing to read "MSH", with a long horizontal line extending to the right.
